## EXPERIENCE

### **Tonic WorldWide pvt. Ltd., MUMBAI(Dubai)** – *jr. Frontend Developer*

August 2021 – PRESENT

- Since I am a self taught developer, I gained so much confidence and knowledge while working on my first IT Job.
- I worked on so many web projects, and built 100+ mailers in just 6 months.
- I improved so many different skills, like blogging, using phpMyAdmin, Photoshop, Cleaning some backend codes in php and mysql(I still don't know much about this though😅), My fav. Tech stack is React, Next.js, MongoDB and I am learning about Dapps.

### **IT Rebels(Self Employed), Mumbai** – *Freelance Web developer*

2018 – PRESENT

- At the end of my first year I started my freelancing journey with fiverr.com in which I started with basic graphic designing and then I improved my portfolio with each order I received.
- It was a tough journey since no one was there to guide me, but still i am happy that i took my first step their.
