- Community building
- How to enjoy my life ;p

JR. FRONTEND DEVELOPER

Tonic WorldWide pvt. Ltd.

2021 - 2022

- Since I am a self-taught developer, I gained so much confidence and knowledge while working on my first IT Job.
- I worked on many web projects and built 100+ mailers in just 6 months.
- I improved so many different skills, like blogging, using phpMyAdmin, and Photoshop, and Cleaning some backend codes in PHP and MySQL (I still don't know much about this though), I mostly worked on frontend technology like HTML, CSS, bootstrap, jquery & javascript.

FREELANCE WEB DEVELOPER/ GRAPHIC DESIGNER

IT Rebels(Self Employed)

2018 - Present

- At the end of my first year, I started my freelancing journey with fiverr.com in which I started with basic graphic designing and then I improved my portfolio with each order I received.
- It was a tough journey since no one was there to guide me, but still, I am happy that I took my first step there.

ASSOCIATE VIDEO EDITOR

Rangrez studio

2018 - 2019

- It was my first job, where I learned to use Photoshop and video editing software like adobe premier pro.
- Here I discovered my most important lesson, which is I can learn what I love to do, there are people who will pay me for this.
