Email: kritiksahco@gmail.com | Portfolio: https://sahkritik.netlify.app/

I'm Kritik Sah, a 20-year-old Enthusiast and youthful learner. I am here to learn how to run a company and work ethics. I am a Web Developer with raw knowledge of frontend technologies like HTML, CSS, Bootstrap, JS, React.js, WordPress & version control tools like git/GitHub and I have a good understanding on how Internet works like web servers, DNS, Linux terminal, python3 and MySQL-Database. I may not have a degree you need or 4-5 years of exp. to show you. But I am ready to prove myself to be helpful. Checkout my portfolio for more...

EXPERIENCE

2019 – PRESENT
WEB DEVELOPER, @ITREBELS

I am a web developer and my job is to create websites for me & my clients, so I started my own small agency named "it rebels" and because of this exp. I realized I have to learn more about business, to run a business. [Self-Employed]

2018 – 2019
VIDEO EDITOR, @RANGREZ STUDIO

I WAS THE JR. VIDEO EDITOR, working under Mr. Zuber Rangrez , it was my first job where I learned about Photoshop, premier pro and more importantly I learned how to convert my skills into money.

EDUCATION

CERTIFICATION'S, UDEMY, I.D.E.M.I , FREECODECAMP.ORG,YOUTUBE

I used to take a lot of certifications from Udemy and learned a lot too but I don't know where to use it (lol). then I tried a Bootcamp approach a joined I.D.E.M.I training center which has a government-subsidized education, so I learn full-stack web development from there in (HTML, CSS, bootstrap, JavaScript, jQuery, PHP) old good technologies. but that was cool at least I get the hang of that feel & confidence that I can develop a website too. YouTube: YouTube is the best platform to learn anything I watch YouTube videos 6-7 hrs. a day.

DEGREE'S, V.E.S. DEGREE COLLEGE, N.S.H.S & JR. COLLEGE

HSC (science 60%), SSC (76%),Perusing my Ty.B.Sc. in Mathematics Degree from V.E.S. college.

SKILLS

- Problem Solving
- Web Development (html5, CSS3, JavaScript, Bootstrap, React.js, python 3, Django, MySQL, WordPress, git-GitHub,
- Editing(Photoshop, premier pro) => YouTube
- Digital Marketing and media management
- Fund raising & Ad's campaign management on Facebook, Google ads and with influencers.

ACTIVITIES

I used to do social service when I was in my fy, now I have a YouTube channel where I share my experience in my web development journey and some resources that I like. I also try to contribute in open-source community like GitHub and stack overflow.
I am using hackerrank to test my skills I receive 2 Stars in python programming in just 2 days now I have 3 of them.
